Grants Haywood Rich Coal Field.

Moscow, Oct. 19 - "Big Bill" Haywood, I. W. W. leader, under penitentiary sentence for sedition in the United States, who jumped his appeal bond and fled to Moscow, has been granted a rich coal concession in the Kusnetsky basin of soviet Siberia. The grant just has been made by the Siberian revolutionary committee..

The grant is made to Haywood as the head of a group of American workmen.

The plan calls for the employment of 2,800 American miners, some of them now in Russia, and the rest to come over soon. The government will provide timber for huts and also fur coats, felt lined boots, and food.

The workmen guarantee to double the present output the first year, the whole production going to the government. The second year the workmen will retain 50 per cent, which they can use for the purchase of machinery and for enlarging the workings.

The status of plants owned by American industrial interests in Russia, such as the International Harvester, Westinghouse, and Crane works, for the first time was definitely defined when Ludwig C.A.K. Martens, the former bolshevist delegate to America and now a member of the supreme economic council, said the plants had not been nationalized by the soviets and that they still remain the property of the original owners.

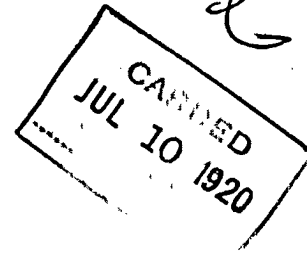

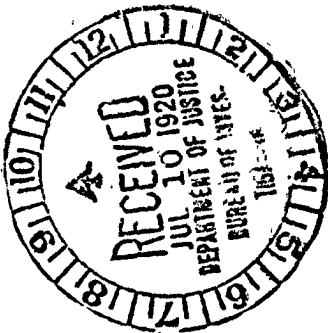

Mr. Martens said the soviet government was anxious to see work resumed in the plants as soon as possible, and he said that he told this to former Ambassador to China, Charles R. Crane, during the latter's trip from Siberia. As far as the International Harvester company is concerned, the government is ready to purchase that concern's entire output, the difficulty now being the manner of payment guarantees, etc. (Chi. Tribune 10-20-21).

FACTS DEVELOPED:

Pursuant to instructions I learned from L.S. CHUMLEY, who is the Editor of the I.W.W. publication that he had sent the New York Times a copy of the Jan. 10th issue of the "Industrial Unionist" and of which publication the New York Times has obtained its article in today's issue pertaining to Haywood. Enclosed will be found the New York Times article and the issue of the Industrial Unionist from which the Times has obtained the said article.

L.S. CHUMLEY is the editor of the Industrial Unionist and he is working under the orders of the G.E.B. of the I.W.W. in Chicago. At present there is no local defense committee of the I.W.W. here other than one, JENNIE CARLIPH who is generally the Secretary-Treasurer of the I.W.W. here and most active in arranging the I.W.W. defense meetings whenever they are held here. She is the Treasurer of the N.Y. I.W.W. Defense Committee, which is at present defunct.

CHUMLEY informed me that he had made an appointment with a New York Times reporter for today and is expecting that he will be interviewed today pertaining to the mentioned article. He refused to speak anything further about this matter to me and showed bitterness against the C.P.

FACTS DEVELOPED:
AT CHICAGO ILL.

Reference is made to communication from Agent in Charge Dowd of Hartford, Conn. dated May 16, 1922 advising that one E. T. ALLISON, official of the WORKERS PARTY is residing on a farm at Bethel, Conn.; that peculiar activities have been noted on that farm and several persons of suspicion are residing there; that a meeting took place there at which important deliberations of the WORKERS PARTY took place; further that a person who bears marked resemblance to subject, who is the subject of Identification Circular #82 has been seen in company of MRS. E. T. ALLISON.

Referring to Identification Circular #82, subject at one time resided at 842 W. Adams Street, Chicago, which is a rooming house, and also had a friend E. J. KUH residing at 2741 Pine Grove St., Chicago. Agent placed a cover on 2741 Pine Grove Street, Chicago.

Thru confidential sources Agent ascertained that the executive committee of the Communist International sent a plenipotentiary representative to adjust the controversy between the opposition and the so-called majority factions of the COMMUNIST PARTY OF AMERICA. In view of the fact that subject occupies a rather dominant position with the radical movement in this country and occupies a prominent position in the Communist International and has charge of the American section of the RED TRADE UNION INTERNATIONAL, it is that subject has been entrusted with the above described mission.

Further inquiries in this matter will be made, and when report will follow.

"Dear friend Boose:

We received your last letter some time ago and was very glad to get it. I had my picture taken Sat. The lady said she would have them ready Tues. so that I can have them to send you. When we having it taken kitty done fine. Do you think the Oklahoma Leader is a good SOCIALIST paper. Papa and mother don't think much of it. Dadey wrote a letter to John Hagel who is manager of the paper. And told him what he thought of it, informed him that when he was putting his money into the paper he supposed that it was going to be an out and out SOCIALIS publication but it was beging to look more like a republication organ boosting for Harding. The comrades are pretty much disgusted with it. If you feel the same way about it put in your kick, too. The more of these he gets the quicker he will wake up, papa has bought a new typewriter and this is the first letter I have wrote on it. We were very sorry to hear that the boys had to serve the rest of the time. We had hoped we would see soon. Well I guess I will close.

With best hopes

Dear Sir:-

For your information there follows a copy of a letter in part, written by Arthur Boose, an I. W. W. Prisoner confined in the Federal Penitentiary at Leavenworth, Kansas, - addressed to Richard Boose, 401 Tower Avenue, Superior, Wisconsin:

"Dear Friend & Fellow Worker

March 28, 1920

* * * * *

Well Richard I see by the newspapers that our fellow workers at Montesano, Wash. are convicted. Of course the outcome of the trial didn't surprise me in the least in these dark days of reaction it is simply impossible to expect a jury of farmers and business men to decide an I.W.W. case on its merits. and then anyway convictions seems to be the style now.

When I think of it all over I wonder how long it will be before that wonderful vision of Robert Ingersoll (his vision or dream of the future) will come true on this little planet and then when I hear the rumble of the tempest all over Europe and in this country the workers are beginning to growl pretty hard about their miserable conditions, I am firmly convinced that I will yet live to see a world without a master or slave.

Well Richard I was glad to get your letter and hope that I will have the pleasure of hearing from you soon again. and let me know how the S.O.C. is making it. I can't understand why it is but I don't hear from anybody in Mpls. We don't get much news in here regarding the organization.

Well Richard I come in behind these walls an I.W.W. and I am coming out one. Give my regards to my friends and accept the same for yourself. Yours for the cause

For your information there follows a copy of a letter written by Stanley F. This letter is written on the stationery of "Keechi Oil Association, 301 Keene Building, D. W. Odell, Attorney, Ft. Worth, Texas:

"Fort Worth, Texas, Moh. 13, 1920.

Arthur Boose,
Leavenworth, Kansas.

Dear Fellow worker:

I am sure you think I have neglected writing because I was not interested in you and the other boys inside, but such is not the case. It has been my intention to write with each day that any of you came into my mind, and that is all the time each hour in the day, but I have failed because I was striving to be in a position to give some material help to the defense, but until now I have failed, and may perhaps fail in the future.

If the gods will be kind to me for a few months longer I will almost sure to clean up some good, or bad, big money in the oil business. I am just now about to close a contract on six thousand acres of land, for a drill, and if the oil should be there I will be over the fence. I have worked until I have six thousand acres leased in my own name and will be up in the clouds if I win.

What do you know about the cases at Chicago. I learned more while looked up than I do on the outside, about those cases. Van is so deep in the cases west that he has no time to answer letters I am sure, but you may have some information from headquarters that I have been unable to get, as I have not heard from anyone in Chicago for some time.

I get the Union Record here in Ft. Worth from a lawyer friend who is Red, and suppose I keep close up in the news from the cases West.

For your information there follows
a copy of a letter written by "Pat Conway", postmarked Highland Station, Minneapolis, Minnesota, - addressed to Arthur Boose, an I. W. W. Prisoner confined in the Federal Penitentiary at Leavenworth, Kansas:

"Fellow Worker

March 12, 20

I am sorry I could not stay with my intention of writing to you every week because: In the first place I forgot my promise. You see I am not going to try that old conventional trick of putting forward excuses for my faults.

I am still a member of the I. W. W. and as much I want to be honest with myself and my fellow workers, both on the inside and out. Then you know I am batching so have the care of the shack on my hands, meetings to attend, etc.

Well Arthur! I don't know how long things are going to stay the way they are at present, but I do know that all the workers are so dissatisfied with the present conditions that according to the latest advices I have received, A Banker in New York (I think it is) Tell one of our Mpls. merchants to get the cash as a crash is expected and they don't know just when it will come.

The R. R. Coys are talking of laying men off wholesale In one instance a company laid off three hundred men at one point and said it would lay them off in the same proportion all over the system. Three hundred in every fifteen hundred or 1/5 of all the men employed.

Now should the other companies follow this example we are going to see something unusual and I have not the slightest doubt that the Bankers message to the Mpls. merchant took the foregoing item of news into consideration and then I don't know weather I told you in my last letter that the labor unions of U. S. has proposed to send either a petition or a demand to the President to free all conscious objectors and

all political prisoners. The British Labor Unions have voted 1500000 strong to support the I. W. W. again! There is some kind of a wrangle in Political circles in this country. In regard to opening a trade negotiations with Soviet Russia. And according to one paper I read I don't remember which one, There was an article headed Soviets can't use own ark to leave country. Now you see, Capitol smells a rat!

They know that if they allow the workers to leave this country their profits are going to be cut down and not only that but: All the workers who leave will be foreigners and mostly those they get to work the cheapest. When they go Americans will be the only ones left and those Americans will be asking themselves what is wrong OUR country is not holding her own in the commercial market of the world.

Such a question, when asked by the people of any country requires an answer in jig time to avert catastrophe either by uprisings or emigration of the citizens themselves.

Well old scout! No matter how we look at it the situation in this country at present is critical to say the least and the people are beginning to realize it more so since the prohibition came in. How long the present condition will hold its own I would not like to be forced to say. It may be only a matter of short duration and again it may be longer than one would think but the fact remains no matter where one goes one hears and sees discontentment and dissatisfaction on every hand and by people who are conservative by nature and that the Church at present is doing the most intense advertising to get congregations to occupy their empty pews.

Capitolists are advocating Americanism by educational methods to prevent the spread of so-called Radicalism. In fact everybody wants to do something and it seems that nobody knows what in Hell to do. Everything seems to be up in the air not excepting the cost of living by any means. Oh please pardon such a mistake. I mean the cost of miserable existence. The very first thing Mr. Capitalist will have to do to secure his position very much longer is to enact laws to pardon all qualities and shades of political prisoners, unconditionally This to me seems to be the requisite first step in the right direction. Failing this, they must again inevitably institute another reign of terror, which will be worse than anything we have seen yet. Which it will be! Freedom and all of life, for all of us or Capitalist misrule, Anarchy and their consequences, remains to be seen.

The Capitalist press itself is responsible for the statement that There was more crime in this country in the year 1919 than any previous year in the history of U. W.

Well old Scout:

The O. B. U. is still doing business at the same old stand and sends greetings to all Fellow Workers and Politicals behind Pryson bars.

I suppose you have heard about the trial the Fellow Workers in Montesano, Wash., and the lynching of Fellow Worker Wesley Everetts, Sec. of 500.

Well Vanderveer is holding our end of the log as usual but who expects anything like Justice or a square deal. The past is to green in the memories of a great many people to be forgotten very easily, and the struggle goes merrily on.

I am going to take your letter to Baklund on Sunday. This is Friday. Well Arthur when I started I didn't know what the Devil I was going to say, but even at that I found an excuse to tell you in a dozen or so sheets of stationery that I have not forgotten you altogether and I am going to do my damndest to remember you better in the future.

"Tulsa, Okla. March 9th, 1920.

Dear Comrade Boone:*****We had a nice long letter from Charlie Erieger a few days ago. he is still with his parents in Hutchinson Penn. but not without his troubles as it seems like they can't let the poor boy alone no place. If he never has done a ything wrong that they are going to drive him to it if such a think is possible. I am expecting to go to Philadelphia in June to attend the Rubber Stamp Makers Convention and shall go by the way of Kansas City and shall stop off there and visit Mr. Guy's parents and make a trip to Leavenworth and visit you." Dear Sir:-

For your information there follows

a copy of a letter in part,, written by Arthur Boose an I. W. W. Prisoner confined in the Federal Penitentiary at Leavenworth, Kansas, - addressed to Pat Conway, 127 28th Avenue North, Minneapolis, Minnesota:

"Friend & Fellow Worker:

March 7, 1920

* * * * *

Note what you say regarding you being 90 days in the Mpls. Workhouse for endeavoring to organize the R. R. Workers in to the O.B.U. I have often thought of you and wondered what was the matter that you didn't write. Your letter stating that you was in jail didn't surprise me very much because I know that that is the style nowadays to throw everybody in jail that endeavor to enlighten the working-class to their own material interest.

As a Bolshevik, Socialist, Anarchist, Red and Christ knows what not. Fools are they that believe for one moment that strikes and discontent are the cause of radical agitation. Agitators are only the effect of a cause and there can't never be an effect without a cause.

If the social conditions were not there to produce the social discontent, there is not one agitator with the power to call a strike less conduct one. Of course it is only logical to expect that the capitalists are going to use their power as long as they retain it. It is also logical that as times get harder that people will arise in protest and that means jailing them.

What got my goat is the severe criticisms of the unions strikes. People naturally believe that when a laboring men receive pretty large wages that they ought to be content.

That argument is all right as far as it goes. When the Government began to pay its shipbuilders \$6.00 to \$10.00 a day, the merchants and institutions to which supplied these laborers the necessity of life raised prices which upon investigation proved to be from 150 to 300 per cent so that the workers could hardly purchase enough to live on. It seems that everybody ought to know that this is the cause of strikes, the Swift & Co in 1919 admits increased dividends of \$23,000,000 over 1918.

The Anaconda Mining Co. with \$51,000.00 surplus in its treasury, yet we find men and women defending these robbers and condemning the laboring men.

Dear Sir:-

There follows, for your information, an
excerpt from a letter written by Arthur Boone, an I. W. W.
prisoner confined in Leavenworth Penitentiary, to Mr. and Mrs.
C. C. Guy, 116-1/2 South Main Street, Tulsa, Okla.

Feb. 29, 1920.

"I wish to say that the Leader finds its way in my cell every week & believe it sure it's welcome visitor. I like it because it strikes straight at the roots of this rotten system. I can see a tremendous change in the character & spirit of the Leader. It seems as if every issue gets better. The Leader is all that it's name implies, a fiery bold inspired rebel. I would not miss it for any thing. I hope that you will make it plain to all my friends & comrades of the Tulsa Local that I am not in a position to write whenever I desire., & that the only way in which I can express my appreciation for the subscription to the Leader is to do it collectively in my letter to you." * * * * *

"Yes, I am glad that the Leader will soon be a daily. The working class is sadly in need of a paper that will take up their fight & point out to them the cause of their economic ills & also point out to them the cause of their ills and point out the cure. The Capitalist papers try to make them believe that all strikes and discontent are the cause of radical agitations, if the working class will read the Leader, they will be convinced that the fact of the matter is, if the Social condition were not there to produce the Social discontent that there is not an agitator with the power to call a strike much less conduct one."

Feb. 18, 1920.

"Out here, it is getting pretty stiff. First the halls are raided then members are arrested and charged with conspiracy to overthrow the government by violence and we cannot tell when or where a raid will be pulled or which of us is next to be arrested or what the charge will be or whether deportation will be resorted to or the penitentiary is staring us in the face. Every one of the Masters agencies is at work to crush us if possible. Here it is the Federal Authorities. There it is the American Committee and in some other place, it is the American Legion. So you see it keeps us busy enough watching for new tricks in the game and at the same time teaching the workers how to protect themselves against the oppression of the Tyrants of industry. The boys have held two or three entertainments to raise funds for Defense and I think they are counting upon keeping them up. I was over to Eklunds place on Monday and he told me to say he has been busy, but will write you pretty soon. Say! Old War Horse, you know Milwaukee Wagner, the fellow worker with the gray hair, well, he now belongs to the A.F. of L. Blacksmith's Helpers union, he is living at home with his mother. But for every one we are losing we are getting twenty new members, in spite of all the Plutocrat persecution. The Tyrannical methods resorted to, by the Law and Order gang is making as many rebels as our propaganda and of education in economics. Well, Old Scout, keep well, our day is coming, and perhaps sooner than we expect. I think the other side realizes that the Tyrannical opposition theory is not just working the way

the counted on and now they are going to try education in what they call Americanization whatever that means. Well, it is getting kind of late."

a letter written by Laura C. Reynolds, 22 Giddings Street, Muskegon,
Michigan, to Arthur Boose, an I.W.W. prisoner confined in Leavenworth, Kansas.

"In this state we are being amused each day with accounts of the senatorial election scandal of the one hundred per cent American the renowned Newberry. It seems that the fighting admiral had a movie taken of himself as being aboard a man-'o-war - said ship being on land while the admiral views the camera. Money galore was scattered broad-cast over the state. The result of this all-Americanism campaign is going to reaffirm the idea that the whole political system is "bunk" and that it is useless for common people to bother with election. It will only increase the growing contempt that people have for the laws. This case is being aired but like the Lorimer case of Illinois it will be smoothed over in the end. Newberry may or may not leave the senate but a bad taste remains with the people. Politics never were very clean and with a world system crashing politics can't get any cleaner. There is a real snow-storm with us now which means that all traffic will be behind schedule."

"One Detroit paper bemoans the fact that the city is shy of churches. Oh it is a real calamity because there are only 350 churches which seat only one-third of the folks in town. Just suppose all the town would go to church at the same time? Oh dear o dear!"

"Note what you say about the many raids & arrest of radicals through out the entire country. Judging from the newspapers. It seems to me that the powers that be are going the limited. I am inclined to think this can't last much longer, the people will not stand for this all the time. Of course, just now they have a fixed habit of putting every body that is trying to bring about a better standard of living condition for the working class in jail. Anyway they all get put away for safe keeping. Well, I see by the papers the trial in Washington is on Vandevor is putting up a hard fight, but in these dark days of reaction it is simply impossible to expect a jury of business men & probably farmers to decide such case on its merit. The very air of that city where they are forced to be tried is laden with prejudice, & of course the kept press is doing its bit as usual to mould a hostile public opinion. But in spite of the fact that the jails are full through out the country the O.B.U. grows, & the most cheerful sign of the new times is the great sentiment for the O.B.U. which manifests itself even among the Craft Unions."

"It looks very much like the radical organizations
are going to be put out of business. I can't see but
what it would be a good thing as it will let the
conservatives get some first hand information as to
what is going on. My opinion is that the skilled American
worker will have to do anything progressive that is
done in this country; they will not play second fiddle
for unskilled or foreign workers.

Financial wise men are sounding slow music about a panic -
they say is coming that will be worse than any yet, so
I suppose it would be well to get advance information
as to the soup line that will put out the best soup
and get a place well up front.

Am sending a couple of clippings, you may find a few
words of interest in them.

Things generally look as bad in spite of a few rough
spots.

The U. S. is sure doing the Russians a dirty trick by
sending that bunch of few smiths over there. I under-
stand they have the welcome sign out for skilled steel
workers and have been suffering from too much talk, but
in spite of it all, they are getting along pretty well"

I am inclined to think that they are beginning to see the hand writing on the wall. I can see a tremendous change in the character & spirit of the working class, they seem to be moving towards the new society and no doubt before this year is over we will have an opportunity to see some interesting history made, the working people seem to all be kicking about their conditions & most of them are on short rations & with industry paralyzed starvation no doubt will run rampant. "Well Boone Chicago felt the Iron heel of the gasters claws once more beginning the New Year. at 6 p.m. they commenced their dirty work raided all the halls in Chicago and not satisfied with that they raided several restaurants and private houses also a number of other union halls, not contented with breaking things up and arresting all that were in these places they left the halls in charge of city police and anyone coming in to buy papers and literature were put under arrest. They kept that all day Friday & the 3rd of Jan. getting any amount of the boys that frequented the halls also a good many of the fellow workers.

I and my wife had the pleasure of visiting their dirty jail here for 24 hours and the wife for five hours. We have all halls open again a protest meeting was held last night at Gurneys hall. Haywood-Kruse-Christensen and other good speakers held their audience all of 5000 people all through the meeting, a collection of \$1,500 dollars was taken up there is quite a few more protest meetings for this week.

I do not know how much good it does to protest but it seems as though there is people that do nothing else you can never get them to do anything towards organizing.

Arthur Boose, an I. W. W. Prisoner confined in the Federal Penitentiary

"We keep in touch with the news as we get all the papers and periodicals and the onward march of the workers gives us a great feeling that kills all pessimism. Judging from the newspapers the capitalist see the hand writing on the wall. They are so foolish that they think that they can stop the sentiment of Socialism by arresting working men and women and throwing them in jail.

But in spite of the fact that the jails are full, the sentiment is growing. They monkey with the effects, and not the cause. As long as we have a capitalist system, so long will we have agitators going to jails.

All fellow workers and Comrades here join me in wishing you all a happy New Year and the best of luck in your good work for the cause we love so dearly.

THE UNITED STATES VS. J. D. BARNES ET AL.

STATEMENT OF Mrs. GEORGE STRAND, taken by RONALD P. TRINER, special agent in charge, Department of Justice, Seattle, Washington, February 23rd 1918:

My name is Mrs. George Strand, and I live at 2018 8th Ave; that I was born in Galt, Canada; that I first joined the I.W.W.'s at Detroit, Michigan, on or about the 18th day of January 1910; I joined this organization at the I.W.W. Hall, and was a member of the local 64 of the Culinary Workers; while in Detroit I did not take an active part in the organization other than to attend some meetings. After being in Detroit for about two years, I went to Minneapolis, Minnesota, and in the meantime I dropped out of the Detroit Local, and took out a new card in the Minneapolis local of the same order; that I first began selling the Industrial Worker on the streets in Minneapolis, and I was paid 2½ cents each for every Industrial Worker I sold, this money being paid by the organization; Along about the latter part of the summer or the first part of the Fall there was a free speech fight took place in Minneapolis caused by some remarks made by ALFRED BOOSE, who was an I.W.W. speaker and agitator, and who had made some remarks while speaking that caused the police to interfere. The I.W.W.'s forced me to get on the box where BOOSE had been speaking and I made a speech favoring the City authorities; after I left the soap box and was walking down the street a policeman struck me on the back with a club (leaving a black mark to this day on my back) and I then went straight home. For six months I took an active part in the I.W.W.'s

1 other than to continue the sale of the Industrial Worker.
2 During the time I was in Minneapolis, I heard ARTHUR
3 BOOSE SPEAK in the I.W.W.Hall and on the streets and he
4 was very strong in his talk about SABBOTAGE, and I remember
5 he made the following remarks - "Sabbotage is the best
6 weapon we have and be sure to use it right, if I had the
7 chance I would burn down every capitalist home in Minne-
8 apolis and every business man's place". I remember dis-
9 tinctly the above remarks made by BOOSE because he made
10 the same remarks on a number of occasions. I also remember
11 when ARTHUR BOOSE was talking both in the IWW Hall and on
12 the streets he would tell the IWW's that when they were
13 working in the harvest fields they should take the pitch
14 fork handles and break them and throw them in the machines
15 so as to stop the machines from working and slow down on
16 the job; I also remember ARTHUR BOOSE telling the IWWS
17 during his speeches to use Sabbotage so as to make the
18 bosses come thru with more money.
19

20 On or about the 1st of January 1912 I arrived in
21 Seattle, having come here to live, and about a week after
22 I arrived in Seattle I took out a card from Thom. White-
23 head who was then secretary of the Recruiting Union here,
24 my card was in the House Worker's Union. I attended
25 practically every business meeting which took place in
26 the IWW Hall; I also sold IWW papers here, which I get
27 from the IWW hall, and which were sold by me from a wagon.
28 While attending meetings at the IWW Hall, I remember hear-
ing HARRY LLOYD speak, this is sometime in the month of
Among other things I remember he said "the way to make

3.

1 the bosses come thru is to use Sabbotage - He told this
2 to all of the IWWs on the corner of Occidental and
3 Washington Streets, right back of the IWW wagon in front
4 of 125 Washington Street.

5 I also heard JAMES J. THOMPSON, last July, speaking
6 on the IWW at the corner of Occidental and Washington
7 Streets in front of 125 Washington St., say, "I know
8 that the best weapon is sabbotage, don't drive the
9 spikes in too far as it might break the bosses saw and
10 not to cut the timbers too short, it might make the bosses
11 slow in getting out their orders". I also heard
12 THOMPSON say, sometime last summer, that the "IWWs should
13 drive little brads in fruit trees, as this would make
14 the sap come out of the trees and destroy the trees
15 finally.

16 I also heard J. J. ETTOR speak in Minneapolis, Minn.
17 about six years ago, on the streets and in the IWW hall,
18 and have also heard him speak on the streets and in the
19 IWW hall here in Seattle; He was telling the way the
20 IWWs had conducted the Lawrence, Mass. strike, and he
21 also told the IWWs present how they put acid in to the
22 dies that were to die the silks in the silk factory, and
23 how the acid would eat the silks up and rot them, and that
24 that when the people tried to wear the goods they would
25 all come to pieces.

26 I also heard HERBERT MAHLER, last July, speak, and
27 he was very strong in his talk advocating sabbotage.
28 Sometime last July I was in the IWW Hall sitting near
29 the railing talking to Herbert Mahler and we were talking
30

1 about the Laundry Workers Strike in Seattle, and he
2 insisted that I organize a Laundry Workers Organization
3 in Seattle into the IWWs; about that time there was an
4 IWW picnic near Bremerton, and Herbert Mahler told me to
5 go to the Laundry Workers and give a ticket to the girls
6 so that each girl could come to the picnic free of cost -
7 I did so but none of the laundry girls came to the
8 picnic, it was Mahler's intention to talk Industrialism
9 and to get them to join the IWWs - the tickets that I
10 did not give away I returned to Mahler; Mahler insisted
11 that I organize these girls, that is the laundry workers
12 and in this conversation he said "Why dont you use
13 sabotage and fix the laundry, by putting LePages glue
14 on the belts and glue the belts fast to the rollers, so
15 that when the clothes passed thru the machinery they
16 would be full of glue and sticky and be spoiled; he also
17 told me to pour blue vitrol on the machinery in the
18 laundry so that the iron in the machinery would become
19 rotten and soften and go all to pieces and put everything
20 on the bum. The laundry referred to is the Cascade

21 Laundry on Third and Main Streets.

22 I also heard Red Duran speak in Seattle last summer,
23 during the Longshoreman's strike, and he was very strong
24 in favor of Sabbotage. I remember he said "He was against
25 conscription - that he did not believe in any man going
26 to war to fight for this country if he were forced to
27 do so. this is a free country and that if he were forced
28 to go he would turn the guns on the U.S. Officers - that
29 the enemy was worse than the enemy.

I remember hearing ARTURO GIOVANNITTI speak in Seattle in the I.W.W.Hall; he told how the IWWs had won the Lawrence Strike by sabotage; he spoke along the same lines as ETIRO, but I do not remember his exact words.

In Minneapolis, six years ago, I heard Walter T.NEF speak on the streets and in the IWW hall - he told the IWWs how they committed sabotage in the woods by driving spikes in the logs - sawing the logs short, in order to make the bosses come thru.

I also heard JAS.M.FOSS speak in Seattle, last summer - I know FOSS very well and also his wife - his wife took a leading part in the tailors strike about five or six years ago in Seattle. I have heard FOSS speak in the IWW Hall in Seattle at business meetings which meetings are not open to the public - about this time the laundry strike was on and FOSS told all the women in the IWW Hall that they knew how to use sabotage and that they should use it to win the strike and put the machinery on the bum, and do anything you can to make the bosses come thru.

Last summer when RE DORAN was speaking in the IWW hall, it was just about the time when the conscription act was passed, against conscription he told me to go to the Secretary and get some literature, especially the 'Constitution' and sell them in the audience, so that they can see what rights they had; that the 'constitution' which I was selling is the true 'Constitution' of the United States.

er during the different meetings
in the IWW hall, he spoke
to the audience and someone

the audience and sell books on sabotage and on a number of occasions, I have sold them in the IWW hall - I have sold these books on sabotage when RUD DORAN JAMES J. THOMPSON and HARRY LLOYD.

On December 23rd last at 8 p.m. I was present in the IWW Hall in Seattle, when three Russian Sailors from the Russian ship "SHILKA" spoke. The sailors spoke in Russian and their remarks were translated into English by a fellow worker (one Fagan); he translated their statements which were "That there should be a revolution in this country like there was in Russia and that he did not think a revolution in this country was very far off; that the IWWs was the 'shining light' to start it and that it would clean up this country".

During my membership in the IWW Organization which lasted about seven years, I know it to be an organization which is against the government, and home breaking; it is the refuge for anarchists. During the entire time I was a member of the IWWs, I would say that I have been in the halls a thousand times, and I have never seen an American flag in the hall or in any part of the building. I have heard them, time and time again, refer to the American flag as a dirty old rag; that this was not their country, as their country is the world wherever they hang up their hat.

I have read the above statement which I have made of my own free will and know the same to be true to the best of my knowledge and belief.

Sworn and subscribed to before me this 25th day of February, A.D. 1918

"Information received indicates that McGregor Cole now in Anaconda. Discreet inquiry of Jack Collin or a man named Anglune may be advisable.

Bom."

I had heretofore, requested Under-sheriff Joe Henault to see what he could secure in this matter. The man referred to in this wire as Anglune is. W. J. Anglum who has been arrested heretofore, and has been in the County Jail for the past two days and who was released yesterday afternoon. He is an I.W.W. and is most active in the strike activities of the Metal Mine Workers' Union at Butte and Anaconda. It is therefore a waste of time for me or any official to approach Anglum with a view to securing information regarding Cole. Any information that is secured from Anglum will have to be secured through other parties and in such a manner as to not arouse the suspicions of Anglum. In view of the fact that Anglum has been in jail for the past two days as a result of an unauthorized raid on their Union Headquarters by a Special Deputy Sheriff, it is inadvisable that he be approached at this time but it is preferable that the present difficulties be allowed to quiet down somewhat before Anglum is approached. As soon as conditions are deemed auspicious, I will arrange through Under-sheriff Joe Henault to have a party approach Anglum with a view of securing information regarding Cole. Under-sheriff Joe Henault, who is a great help to this office, advises me that he has for some days past been endeavoring to get a line on Cole but is unable to secure any trace of him whatever.

Arthur Boose was arrested here the night of the 30th untimo and it was about 10 A. M. of October 1st before I learned where had had been rooming, in an alley entrance in the 400 Block on South Elgin. I immediately searched the place and his room there but found no suit case, which he was reported to have. When I questioned Boose I suggested to him that I would send a car after his baggage and look after his wants when he said he would need some of his baggage and he stated he had a suit case at the address on South Elgin. So it was evident that it had been moved by some of his friends while he was in jail for I already knew there was no suit case at the Elgin address.

I am mailing to the Chicago office some papers and note books taken from the person of Boose.

On the night of the 30th ultimo, Arthur Boose was apprehended at the I. W. W. Hall here by Deputy Marshal Moran. Complaint was made before the U. S. Commissioner here this day, the 1st instant and he now- is now in jail.

I sent the following telegram;

Findlay,
Enid, Oklahoma, etc.,
Arthur Boose has been apprehended.

Whalen.

Arthur Boose was brought to my office this day and I questioned him. He stated he was born in Milwaukee, that his father, Henry Boose was born in Germany and came to this country when he was 19 years of age, that he was now a retired farmer and lived in Abbotsford, Wis. Boose stated that he had been engaged in I. W. W. organization work for the past three years but that he had given all his time to it for the past year, that he was Secretary of the Tulsa Hall here from February to May last when he went to the Omaha Office of the I. W. W., that he was at the Minneapolis office of the I. W. W. during the summer of 1916 and that he was in St Louis during the Holidays of 1916. He stated he had never argued against the draft or registration and absolutely had no knowledge of any german money being offered to hinder the war, that Wm. D. Haywood had informed him that the Government would be able to learn nothing against the I. W. W.

I get no line here on McGregor Cole. He may be using another name and I desire a good description of the man at once.

STATEMENT OF OPERATIONS, EVIDENCE COLLECTED, NAMES AND ADDRESSES OF PERSONS INTERVIEWED, PLACES VISITED, ETC.

On the afternoon of the 29th instant Agent Findlay instructed me to cause the arrest of Arthur Boose and McGregor Cole who had been indicted by the grand jury at Chicago.

Tomas W. Shannon of the Pinkertons was in Tulsa and as he has an operator~~s~~ here who has joined the I. W. W. at this place, I got him to put me in touch with his man whom I met last evening, the 29th, and he agreed to go ^{to} the I. W. W. headquarters and trail Boose home and inform where he lived as this operator informed me that Boose who is now secretary of the I. W. W. here, keeps literature and papers at his home or where he rooms and does not bring this stuff to the hall for fear it will be seized. This operator stated that Boose made a 45 minute speech last Sunday but that the speech was on organization.

He stated that Frank Ryan who has been secretary here until very recently also made a speech in which he gloated over the ship builders strike at San Francisco and stated that the strike was hindering in the war and stated that anything which would delay the war was good for the cause. He stated that a picture of the Kaiser, a cartoon, in which the letter^s I. W. W. was across the face of the Kaiser and that Ryan stated that he wished they had more like the Kaiser.

This operator has reported this day that he practically located Boose on East Third Street but is not sure of one of two houses. Deputy Marshal Moran has been acquainted with all this information and we think Boose will be picked up in the morning and his place searched.

This operator knows nothing of McGregor Cole, or where he is.

He will surely go out this week as his bond is \$10,000. I was walking around in the yard looking at the beautiful flowers a lovely big fat robin pulled a worm out of the ground and as he was full, he just pecked at the worm and ate mouthfuls. Finally he flew away and left the worm all frayed but still alive. Sometimes I feel sick over the cruelty of it all, so much pain that life may be, one dare not speculate on this subject or one would go mad realizing how much pain there is in the world. I would not be in this but that I know there are so many helpless ones that we ourselves are as helpless and that our way will eradicate such untold misery.

I had a great surprise last week, Mrs. C. C. Guy came here to see me. We had a good long talk about many things, but I am sorry to learn that things are so quiet at Tulsa. She told me that the Socialist didn't have a meeting since my arrest. Now that the war is over, I don't see why they don't get busy again and do something for the cause. If the comrades and fellow workers in the other parts of the country had the war horrors like they have at Tulsa, I am inclined to think that all the political and class war prisoners would rot in prison. If the Capitalist can but put fear into the slave by putting a few men and women in prison, they will always have a bunch in jail for the rest to take warning from their fate. Mrs. Guy went from here to St Louis on business. Mr & Mrs. Guy surely have been very kind to me. I shall never forget their kindness.

Well, my space is all. I would like to say much more but can't this time. I suppose you are reading and watching the strikes and revolutions all over the country, it sure makes one feel good. What some of us are going through now is certainly worth while when one considers the happy future that is coming for all humanity.

Well my friends. Give my friends my regards and tell them all that we are getting along alright, but it is up to them to carry on the work for the cause we love so dearly where we were compelled to quit.

I remain yours for a better world to live in,
(signed) Arthur Boose"

Yours very truly,

"Arthur T. Bagley"
Division Superintendent.

A copy of this report is being ~~am~~ sent to Officer Whalen at Tulsa, Oklahoma, for his information and in order that he may be advised of the friends of Arthur Boose, for further investigation of this matter at Tulsa.

WWG-AS

May 14, 1921.

To All Special Agents in Charge:

61-1830

The following officials of the I.W.W., whose photographs are attached hereto, are wanted for failure to appear for confinement at Leavenworth Penitentiary, bond having been forfeited:

WILLIAM D. HAYWOOD: Formerly General Secretary-Treasurer of the I. W. W. General Defense Committee, and since September, 1920 official lecturer for the General Defense. Left Chicago in February, 1921, for an extensive Eastern lecture tour, and has not been seen in this city since then. Has last communicated with I.W.W. headquarters on March 23, 1921, when he consented to be one of the speakers at a May Day Mass Meeting to be held in this city on April 30, 1921. It is alleged that Haywood, George Andreytchine, Charles Ashleigh, and Robert Minor, were speakers at a mass meeting in New York on March 28, 1921, and that Haywood sailed from New York on March 31st for Stockholm, Sweden, bound for Moscow, Russia. It is rumored at I.W.W. headquarters and also by Otto Christensen, I.W.W. Attorney, that Haywood will return to the United States after he has attended the Third Congress of the Communist International on June 10, 1921, and the First International Congress of Trade and Industrial Unions on July 1, 1921, at Moscow, Russia.

GEORGE ANDREYTCHEINE: Editor of the Bulgarian I.W.W. paper. While in Chicago he resided at 842 W. Adams St., in a room above a Bulgarian coffee house. He made frequent trips to the coast, and while in the West his address was in care of W. E. Spoor, Box 11873, Seattle, Wash. Andreytchine has been absent from Chicago since the early part of March, 1921, and was on a lecture tour in the West, and recently on the Mesaba range in Minnesota. Information secured is that Andreytchine came to Chicago on April 23, 1921, reported to John Martin, Secretary-Treasurer of the General Defense, at I.W.W. headquarters, and promised to surrender himself to the U.S. Marshal here on the afternoon of April 25th. He went to the Sand Dunes, at Oak Hill, on Sunday, April 24th, in company with Edwin J. Kuh, a

broker residing at 2741 Pine Grove St., this city, and returned with him Sunday night. He spent the night at Kuh's Home and left there the following morning at 10:30 o'clock, stating to Mrs. Kuh that he was going to the I.W.W. headquarters and surrender with the other boys. Nothing has been heard of him since then and this office has been unable to trace him and further. Andreytchine's \$10,000 bond was signed by Harry Weinberger, attorney, 261 Broadway, New York City.

Rothfisher's bond of \$5,000 was signed by William Bross Lloyd and George Dethloff, both of Chicago, who disclaim any knowledge of his present whereabouts. (File No. 8256)

61-2494

ARTHUR BOOSE, a member of the General Executive Board of the I. W. W., and formerly an inmate of Leavenworth Penitentiary, addressed a meeting at Richmond Halls, Minneapolis, in the evening of February 18th, 1923. His subject was "INDUSTRIAL FREEDOM AND HOW TO GET IT". About one hundred fifty persons, all men except one, were in attendance.

The speaker began his address by the statement that the I. W. W. is the only organization that has a remedy to cure the present social ills, and that if they are able to work out their program universally they can solve the economic problems of these times. The I. W. W., he said, is blamed by the capitalist class for the present discontent and unrest, whereas, the I. W. W. is in no way to blame for present conditions, and is only seeking to solve the present day problems. The capitalist class is entirely to blame for the prevalent discontent and unrest and they are seeking to shift the burden by laying the blame on the I. W. W. The I. W. W. answers that the capitalist system is sick and the I. W. W. has the only remedy. BOOSE said that he does not think anyone will doubt there is a revolution coming in the near future. The I. W. W. is

seeking to organize the working class so that when the revolution does come that they can have an intelligent revolution and it behoves every man and woman to make preparations so that mob killing and mob violence can be avoided.

The speaker warned his audience against placing confidence in the politicians who promise to solve the social problems through the ballot. Their promises, he says, are empty promises and the experiences of the laboring classes in the past should teach them that their salvation lies in no political party. He says that the only solution is industrial unionism. He warned against amalgamation of the different crafts, saying that this would not produce the desired results, and he also derided the policy of the attempt to gain control of the A. F. of L. by the "boring from within" policy. He said that the A. F. of L. is a re-actionary organization, and the futility of expecting that organization to help the working classes has been shown many times. He referred at some length to the recent strike of the shop crafts, and said that they had no chance to win because of other crafts of the A. F. of L. "scabbed" on them. He referred to the fact that the four brotherhoods not only did not go out in sympathy with the shop craft, but the engineers and firemen knowingly hauled "scabs" to take the place of the striking shopmen, as did the conductors and brakemen. He also said that the A. F. of L.'s policy in not taking in ^{all} negroes as members showed that they did not care to help the working classes. There are, he said, one hundred forty-nine thousand colored workers on the transportation systems of the country but they are not permitted to join any of the Big Four organizations, and are therefore

compelled to work as non-union men, while the I. W. W. caters to no class, color, or creed, and is therefore in position to take in all laboring men, and is particularly fitted for the migratory workers.

The speaker said that the remedy is to control all the commodities at the point of production. The slogan of the I. W. W. is "A FAIR DAY'S PAY FOR A FAIR DAY'S WORK" and he said that this did not appear to the capitalist class to be a revolutionary policy until they came to inquire what a fair day's pay should be. The I. W. W. program defines this fair day's pay as the full amount of the product which the worker produces leaving no margin whatever for the capitalist and the capitalist systems which, he says, produces nothing.

The A. F. of L., he said, limits the membership in each craft in order that too many workers may not attempt to secure work in the same craft. This, the speaker said, does not benefit all the members of a particular craft or all of the working class, because it leaves many unemployed. The program of the I. W. W. is to get all workers into one union. When it is found that this does not take care of all the unemployed, the plan of the I. W. W. is to then cut the hours of labor to take care of all those still out of work. The hours of labor will be cut in this way to a six hour day eventually, and perhaps to a four hour day and when all the laboring class is then taken care of there will be just one more cut in the hours of labor, and this last cut will be made to provide work for the bosses.

Throughout his address the speaker digressed considerably and covered a wide range of topics relating to the industrial situation. For instance, he spoke about the sad plight of the farmers of this

country and made reference to an article recently published in the Minneapolis Journal which displayed the photograph of a check for \$1.30, which a farmer in North Dakota, received in payment for a carload of potatoes shipped to Minneapolis. This, he said, refuted the argument that the salvation of a great portion of the workers was in returning to the land. He said that this was wholly untrue, and that the only hope for the workers was to continue in industry, but in order to carry out the program successfully they must cease to be hirelings and plan to completely control all industry.

The speaker said that he was formerly employed as a teamster in the lumber woods in Wisconsin, Michigan and Minnesota, and in traveling about from camp to camp in an effort to better his condition, he found how utterly futile such an attempt was when the lumber barons were organized and the workers were unorganized. This led him to look into the doctrine of the I. W. W. and he was at once convinced of its practicableness. He has since devoted his time and efforts to organizing for the I. W. W., and he expects to continue until the necessary results are obtained or until time of his death.

A collection was taken but no announcement was made of the amount obtained. The crowd took a little more than ordinary interest in the speaker's remarks, and was in no way demonstrative.

On August 20th, 1920, Subject, ARTHUR BOOSE, was arrested with MIKE DOYLE, DAN LUSTON, and HENRY J. GEHRIG, I.W.W. organizers for distributing I.W.W. literature. It appears that after some investigation of the literature, the I.W.W.s were all released by Prosecuting Attorney A. J. Gillis who stated that while the men were apparently I.W.W. organizers, that that was not a violation of the law and that there was nothing in the literature itself violating the Washington State Syndicalism Law.

ARTHUR BOOSE is a well known I.W.W. and 1919 was confined in the Leavenworth Penitentiary. We do not have his description in our files but he was evidently sent to Leavenworth from Chicago. We have a copy of a letter written by Boose from the Penitentiary to Mr. & Mrs. C. C. Guy, 116½ South Main Street, Tulsa, Oklahoma, which no doubt, refers to the murder in Centralia, Washington on November 11th, 1919. A copy of this report is sent to the Spokane office for

such attention as it may deserve. Subject is a member of the General Executive Board of the I.W.W. and scheduled to speak in the Peoples Park in Seattle on September 2 and 3, 1923.

In view of the similarity of names, I believe the person mentioned above may be identical with WILLIAM D. (c) I am returning herewith despatch #208 dated August 30, 1924, received by you from the American Legation at Riga, which you requested be returned to you after it had been looked over here. [This was forwarded in connection with your letter numbered U-2-861.00/10490, referring to GEORGE ANDREITCHINE.] I find from the Bureau's files that ANDREITCHINE was a prominent member of the I.W.W. and was one of the defendants in the case of the United States vs. William Haywood, et al. tried in Chicago before Judge Landis. ANDREITCHINE was convicted and sentenced and while at large upon bond, pending the determination of his appeal to the Supreme Court of the United States, disappeared and has never been apprehended, The Supreme Court of the United States having affirmed the decision of the lower court.

ANDREITCHINE was in sympathy with the Communists, and a supporter of the Third International and is the author of many articles in the I.W.W. press urging the I.W.W. to affiliate with the Third International. He was for a time editor of the Bulgarian I.W.W. paper in Chicago, and as stated, was a very prominent member and official of the I.W.W. Subject has wielded considerable influence among members of his organization and is reported to have been very active in strikes among the iron miners of the Minnesota Iron Range.

While it does not appear on what charge he was then held, in July 1918 he was given a hearing before a Justice of the Peace at Grand Rapids, Michigan, at which he stated he was an Anarchist and believed in anarchy before he came to the United States. I am informed that the charge upon which he was held in July 1916 was that of inciting riot in a strike of Iron Miners. He is reported to have come to the United States through the Port of New York on December 10th, 1913.

Dear Sir:-

On August 17th, 1918, at Chicago, WILLIAM D. HAYWOOD and 96 other defendants were convicted of conspiracy, and on August 30th, 1918, the defendants were sentenced to serve various terms in the penitentiary at Leavenworth. It is supposed that most of these defendants are now serving their sentences. According to Identification Order #82 and other information in the file, William D. Haywood, George Andreytchine, Grover H. Perry, Charles Roth-fisher, Fred Waakola, Leo Laukka, Vladimir Kossieff, Herbert McCutcheon, and J. M. Meyer, were released from the penitentiary about July 25th, 1919, pending the decision of their appeal. The convictions were subsequently affirmed and the nine defendants above named became fugitives. If these men are still wanted, it is the duty of this Bureau to endeavor to locate them.

Kindly ascertain from the U. S. Attorney the status of these men and forward to this office information upon which to base separate Identification Orders for any who are still wanted. On account of the length of the indictment, it will be impossible to fully describe the offense in the Identification Orders. However, you should furnish the date of the indictment, cite the statutes which the defendants were alleged to have conspired to violate, state the sentences imposed, and state the date upon which the convictions were finally affirmed.
